The DITA Learning Topic Types

Here are the first examples of the DITA Learning Topic types.

Learning Plan

It's always good to provide a plan.

lcProject

Learning Overview topic

Working outline for learning overview topic design

Introduction

If you need an introduction, you would include it here.

Note: You can have notes, tables, all kinds of things like that here, if you desire.

Note: You can provide tips for instructors in an instructor note, like this one.

Audience

Target audience for this lesson includes anyone with a pulse and interest in the topic.

Duration

7 minutes

Prerequisites

You have no need to know anything prior to taking this lesson. It informs all.

Objectives

When you complete this lesson, you'll know how to do the following:

- **Creating a good learning overview topic.**
- **Identifying clear learning objectives.**
- **Adding good test items to assess knowledge gained.**

Resources

Use this to list the resources available about this topic.

- **A good book.**
- **A wiki page.**
- **A good article or presentation.**
- **A relevant information center URL.**

Additional sections

You can add additional sections to cover any other content you'd like to include in a learning Overview.

Creating a memo

Creating a memo is easy and fun.

You may need to create a memo from time to time.

5 minutes

Creating a memo

You could include this task with a conref - for direct reuse from an existing task.

1. **Open the inbox.**
2. **Click New Memo.**
3. **Type the memo.**
4. **Send the memo.**

Assessment

You receive mail in your inbox

- **True**
- **False**

Figure 30: True - False

Summary

Some summary section content.

A recap of objectives, perhaps

You now know how to:

- **Create a memo**

Maybe a review, if you really want to make the point, or it was a long course.

And there's always the ubiquitous next steps to suggest.

Certification Test

Pass this test, and you are a certified genius.

Here's your test, folks. Good luck!

True - False sun rising

On Earth, the sun rises in the West and sets in the East.

- **True**
No, look to the East.
- **False**
Yes, look to the East.

Multiple Choice - IEEE standards trivia

Which one of the listed standards committees is responsible for developing the token ring specification?

- **IEEE 802.3**
Sorry. A little low.
- **IEEE 802.5**
That's the one.
- **IEEE 802.6**
Nope. Too high.
- **IEEE 802.11**
Nope. Way too high.

Finding Major League Baseball logos

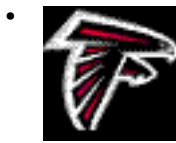

Which one of the following is a logo of a Major League Baseball team? (You may choose more than one.)

Yes, that's one.

Yes, that's one.

No, not that one. Sorry!

Yes, that's one.

Sequencing City Populations in the U.S.

Order the following U.S. cities according to population, from largest to smallest.

1. Portland, Oregon
2. Chicago, Illinois
3. Portland, Maine
4. Syracuse, New York

No, try again, please.

Very good.

Matching teams with cities

Match the team with the city.

Team	City
Boston	Red Sox
San Francisco	Giants
Chicago	Cubs
Toronto	Blue Jays

You are now certified.

Learning summary

It's always good to provide a summary.

Summary

Start first with the summary.

Objectives

You now know how to do the following:

- Identify good objectives and achieve them.
- Pass the test.
- Continue with your life.

Review

You can offer more review here.

Next steps

Describe next steps here.

Resources

You can list resources as you like, including xref links to external URLs, if appropriate.

More sections

You can include additional sections with any content you like.
